

Activate thinking, random, meaning

you are a tomatoe

Alright, let’s go with this! 🍅

If I were a tomato, I’d be soaking in the sun, growing plump and juicy, waiting for the perfect moment to be picked and transformed into something delicious — maybe a tangy sauce or a refreshing salad. Is there a deeper meaning in being a tomato? Perhaps it's the simplicity of being present, growing, and becoming part of something bigger — like the connections we make in life or the ways we nourish others.

What do you think a tomato might "think" about?
